BSc Software Engineering
King Saud University 2012-2016

Summary

I'm a competent product manager with a successful track record of building digital products and online communities, that coupled with my strong academic background and previous technical roles make me an effective person to participate in the success of the organization's digital products.

Work Experience

Mobile App Team Lead 2019 - Present
RiyadBank

I'm part of the team responsible for the new Riyad Bank mobile app which was released in 2019 with all new online banking services that includes the latest trends in E-Banking.

IT Community Leader 2017 - 2018
C4I Centre for Advanced Systems

I was the team lead for my organisation social programs where we organised several events for the IT community in Saudi Arabia. Here is my key achievements:

- Established under a committee **The Saudi Federation for Cyber Security and Programming** 2018
- Organised and managed Hackathon Arabia competition 2017
- Organised Google HashCode Event in Riyadh 2017

Integration Developer 2016 - 2017
Saudi Telecom Company

Built a tool to automate testing of the all STC Rest and Soap APIs and automatically alert IT support if any of the web services is down. I have also worked with STC mobile development team on several of STC mobile apps.

Projects

Launched W-Aqol.com which gets 200k visits every month and more than 150k Downloads in AppStore and Google Play

The platforms helps you find correct Arabic responses in social gatherings with the ability to add your own responses and help others in the community. I used Ionic framework as the FrontEnd and Node JS as the BackEnd.

Founded PodcastArabic a community for Arab Podcasters that currently has 11k followers on Twitter and 2500 users on Telegram
Podcast Arabic is an initiative that aims to build a community around podcasting (Audio blogging) in the Arab world so far the initiative has enabled the creation of more than 50 new Arab podcasts. To check on it visit our page @PodcastArabic / Podcastarabic.com

Published "Tiar" a podcast that tells stories and lessons about MENA digital products.

Tiar is an Arabic podcast that tells captivating stories behind digital products in the MENA region.
